

Eberly Building Access Log – QR Code

Please be sure to log your entry using either the QR code or the link and complete all the requested information.

It is critical for contact tracing that WVU has a comprehensive record of all individuals entering the building.

Please do NOT let anyone enter the building without registering their entrance.

If we discover that individuals have been entering without logging in, we may be forced to ban non-compliant individuals from admission in the future.

Click [HERE](#) if you have trouble with the QR Code (the full link is below as well)
